

## PUBLIC EDUCATIONAL MEETING

North Central Health Care and the Langlade County Sober Living Committee are hosting a public educational meeting with Apricity regarding the proposed sober living facility located in the City of Antigo. This public educational meeting and listening session will be led by Michelle Giese, the Chief Executive Officer of Apricity, to elaborate on the Apricity Sober Living Model and how it functions in Appleton, WI. The public educational meeting and listening session will take place on October 8, 2019 at 6:00 p.m. at NTC Wood Technology Center of Excellence Building in room 108B.

The Committee is interested in meeting with County residents to provide information about the sober living program, to allow for public input, and to answer questions about the sober living model. The sober living program is designed to provide a safe and stable living environment to individuals while they are participating in treatment programs for substance abuse. The program provides individuals recovering from substance abuse with a continuum of services, including: treatment, housing, employment services, family counseling, as well as other forms of aftercare services.

Information regarding the sober living facility and the model in our community is available in the County Clerk's Office located on the second floor of the Courthouse or online at <http://www.co.langlade.wi.us/> and follow the link to "sober living".
