6. Discuss frequency of mowing operations on County highways: This item was requested to be put on the July agenda at the June 14, 2017 meeting. Commissioner Braun explained that the State allows mowing of State roads one time per year with the County following the same policy on County roads. Supervisor Novak asked what could be done to mow the County roads more than one time per year. Commissioner Braun stated if we expend extra money mowing there would be less paving. If there are safety concerns, additional mowing is performed in those specific areas. Supervisor Novak stated that he did not want to see a reduction in paving.

8. Highway operations report is attached to these minutes. Motion by Poltrock, second by Bonacci, to approve Highway operations report. 5 ayes, 0 nays. Motion carried.
9. Review the process to resolve complaints regarding the Highway Department as set forth in the Government Accountability and Complaint Resolution Policy: Corporation Counsel Stowe and Human Resource Director Resch reviewed with the Highway Committee the Government Accountability and Complaint Resolution Policy and the chain of command within the Highway Department. Corporation Counsel Stowe stated that he is hearing of concerns/complaints being brought directly to County Board members by County employees. He stressed the importance to redirect those individuals with complaints to follow the proper chain of command and utilize the Langlade County Complaint Form. The complainant can remain anonymous but complaints based on hearsay would not be considered credible complaints. When a complaint is discussed by County leadership, this can create a presumption that the complaint is credible and that the County will be investigating the complaint. If these complainants are redirected to follow policy, they will be looking to Human Resources Department for resolution and not expect results from the board members. (No closed session was needed).

11. Review/approve proposals for engineering services for Skinner Dam inspection: The Committee reviewed/approved quotations for engineering services for Skinner Dam inspection.
